BOX SPRINGS PICNIC WAS GREAT SUCCESS

Ideal Weather and a Good Crowd in Attendance— Liberal Collection Made For Red Cross.

The Box Springs branch of the U. F. A. maintained their reputation by the great success of their annual picnic held on Dominion Day. As elaborate preparations had been made for the occasion the ultimate success of the day depended on the weather. Man was there with the goods and provided an ideal day for an outing of this time. A large crowd was present from town and the surrounding country and all entered heartily into the spirit of the occasion.

The large bluff in the centre of the picnic grounds made an ideal spot for picnicking and added greatly to the comfort and enjoyment of the day. After the morning arrivals had partaken of lunch the school children for Box Springs and the surrounding districts part on a musical program which was made up of patriotic songs and choruses, telling of the Red Cross and the war. The items were well rendered and reflected great credit on the teachers of these schools.

After this a lengthy program of athletic sports and horse races took place to the amusement of all present. During the afternoon Red Cross collectors passed through the crowd and took up a collection for the society. In this they were liberally supported by the gathering and succeeded in collecting \$48.01. In the past the committee in charge of the picnic always took up a collection to provide prize money for the various events. This year the sum of the district who took part in the horse races very kindly decided to enter their horses and run the races for the benefit of the Red Cross. This being the case there was only the collection of \$10.00 was taken out of the collection for this purpose. The balance of \$10.00 was given to the Red Cross fund as a donation from the residents of Box Springs district.

The U. F. A. committee wish to thank the young ladies who undertook the work of collecting and also those who contributed in any way in aiding to the great success of the day.

The following were the prize winners in the different events:

Mrs. Wm. Ardinger Passes Away Suddenly

It was, indeed, and news which reached here last Sunday announcing the sudden death of Mrs. Wm. H. Ardinger of this town. It will be remembered that Mrs. Ardinger had Reddell six weeks ago for Rochester, Minn., where she underwent an operation for internal troubles. The operation was reported successful and only a few days later word was received by relatives here that she was progressing favorably. In fact she had been enjoying a very substantial nourishment, and only on Tuesday morning had written a letter to her son here. Consequently the announcement of her sudden death came as a severe shock not only to the members of the family but to her large circle of friends.

The late Mrs. Ardinger came to Reddell from Greenville, Ohio, about four years ago. She was kind, thoughtful, Christian like she had been brought to the large circle of friends among whom she mingled. Although suffering from her ailment for some time past she was always bright and cheerful, and even till the last, bore with her affliction with a fortitude which was well deserved.

Besides a husband, deceased, leaves one son and one daughter, Mrs. C. A. and Charles Ardinger, both of this town, to mourn the loss of devoted mother and loving mother. To them the sincerest sympathy of the entire community goes out in this time of bereavement.

Deceased, whose maiden name was Isadora Belle Evans, was born on April 18, 1868, and at the tender age of 4 years was left an orphan. She was married on March 4th, 1886. The remains arrived in Reddell Friday and will be interred at 2 p.m. Rev. David Hollinger conducted the service which was most impressive throughout. The many floral offerings which covered the casket served as a slight reminder of the high esteem in which deceased was held by her many friends. The remains were taken to the Medicine Hat cemetery for interment and will be buried on Monday. A large number of friends and acquaintances.

American Transports Battle With Subs.

A Fourth of July report from Washington says: "An air of elation pervaded administrative circles over the arrival of the first American overseas expeditionary forces after a voyage in which submarine attacks were made against the loss of at least one of the undersea raider. A French vessel landed intact at Aftonport without the loss of a man, ship or animal."

The first encounter on the night of June 22nd was a complete victory for the convoying destroyers, whose accurate gunfire directed on the enemy craft as revealed by the roving rays of the searchlights, speedily routed the attacking forces.

American gunnery took effectively in the second skirmish a few days later. A quieting section of destroyers thrown around the transports held the raiders at a safe distance while the British destroyers were on the surface of the sea after the battle indicated the destruction of one and probably more of the undersea raider.

Both attacks were made far out on the Atlantic beyond the ordinary range of submarine operations. This is taken to indicate that the German submarine had been furnished with information concerning the regular routes to be taken by the American contingent. Every effort is being made to run down the spies who are believed to have furnished this information to the enemy."

It was a surprise to the whole world to learn last week that an army of approximately 60,000 American soldiers had landed the long voyage through the Atlantic without mishap and had landed safely in France.

U. S. TROOPS IN FRANCE

The American troops now at the front will begin going to the front camp for instructions before the lines by the end of this week. The first contingent was expected to arrive the fourth of July celebration.

Unrest in Spain Is Growing Apace

The situation in Spain far from improving, seems to be growing more serious to worse. The gravity of the crisis is confirmed simply by such news as reaches Paris. The Madrid correspondent of the Petit Dardillon, telegraphing Sunday, says that the suspension of constitutional guarantees by the government has not removed the unrest in Spain. The fact that the heavily armed Spanish press publishes nothing concerning the internal situation seems to indicate that conditions are far from normal.

There are three causes of discontent—the general election, the army, the dissatisfaction of the democratic parties and the unrest of the masses. The first is the most serious, the second is the most acute, the third is the most widespread.

U. S. Baptists Give Tangible Expression

A pleasing incident was related by Dr. T. White when speaking on the subject of "Fraternity at the social Canadian-American service last Sunday evening. It appears that the Northern Baptists near the border held their convention at Cleveland, Ohio. When they heard that the Baptist churches in western Canada had sent 2,500 of their men overseas for military service, they sent for the secretary of the Baptist western mission and in convention their president, Dr. White, presented him with "Old Glory" and authorized him to draw upon the convention for \$500 per month for 12 months to help them out in their time of financial need. This is another proof of the present kindly feeling among the peoples on both sides of the border. Long may it continue.

Canadians Gain Another 700 Yards

A report from Canadian headquarters says: "The drive south and west was the most fierce, but the Canadians were not too far from the operating in the region east of Reservoir Hill, supported by a command of 700 men, the British and the Canadians, the north of the city, and were unable to maintain the extreme of the advance. German counter-attacks continued during the morning. Fighting was proceeding amid the ruins of houses, and the front was under a bombardment by heavy guns, making the line difficult to locate or maintain. The Canadians were really a solid force, which the value of small groups of men using bombs and bayonets decided the issue.

Russia Again Active On Western Front

Proceeding exceeding 10,000 and the capture of the village of Konshay and strongly fortified positions southwest of Brestany are the first fruits of the new offensive movement of the Russian forces in eastern Europe. North of Konshay the Russians have attacked and burnt houses are in progress. The Russian army is active from lack of shells, played an important part in the defeat of the Austro-Germans at Konshay. For two days a rain of shells was thrown into the German positions, and Berlin says officially that they were turned into powder.

The Russians not only carried three lines of German trenches and Konshay, but also the line was most bitter, and Berlin claims that 16 Russian divisions were thrown forward. The Russians carried the fortified Teton positions at several points in Austria, of a desperate resistance by Austrians, German and Turkish troops.

Twenty—three States Are Now Bone Dry

Twenty-three states went bone dry at midnight on June 30th, the effective date of the prohibition of the shipping of liquor into any territory where its manufacture or sale is prohibited. Elsewhere, the states are partially affected by the legislation, which has been hailed by many as the greatest step toward abolition of the liquor traffic in the nation's history.

The language of the anti-alcohol section is very comprehensive, imposing a fine of \$1,000 and imprisonment for six months, or both, on any person who shall "order, purchase, transport or receive liquor for sale, for use or consumption in any state or territory the laws of which prohibit the manufacture or sale thereof of intoxicating liquors for beverage purposes."

Canadians at Front Observe Dominion Day

Dominion Day was celebrated in the Canadian trenches by a triple salute from all the guns on the Canadian corps' front. Just before noon the guns ceased to fire. Simultaneously at 12 o'clock, and again at 2 and 4 minutes past the hour, hundreds of guns, from 18-pounders to the great siege pieces, the shells from which fell miles behind the German front, burst out in a mighty clamor. They told the enemy for the third time on Canada's natal day since the war began that the Dominion is in this fight for liberty and democracy till the last gun is fired.

There were special Dominion Day services at various points behind the lines. At the corps' headquarters the corps commander and his staff attended. The sermon, preached by a distinguished bishop, gave special reference to the jubilee of confederation, and to the great part taken in the war by the men of the overseas Dominion, who had come from all parts of the world to fight for human liberty. The graves of Canadians who had fallen were to be found wherever the fighting had been fiercest, but the bodies were not too far from the front. The graves were not too far from the front. The graves were not too far from the front.

Disastrous Fire Visits Seven Persons

Last Sunday night a disastrous fire visited the village of Seven Persons and destroyed six stores and the post office with a total loss of approximately \$75,000. The fire started in some unknown way at 9:45 p. m. in the workshop of Hunt's garage and very quickly spread to the adjoining buildings. A call was sent to Medicine Hat for assistance and as soon as the department could get to the scene, the brigade was on its way. Although they had a blow at the front of the hill, they made the seventeen mile run in forty-five minutes and in short order had the house on fire and were playing water upon the conflagration with beneficial results.

Germans Now Have New Style Triplanes

Germany is making tremendous efforts to regain supremacy of the air on the western front. The United States has learned from official sources that during the week past an entire new type of triplane has been built by the French firm, and the new machines are being equipped with machine guns.

Two weeks ago the enemy soldier appeared in the air. Presumably the German airmen were receiving their new planes and testing them out. Now they are re-appearing in large numbers. Lieut. Thaw and Sergeant Willis of the Lafayette escadre reported encountering an enemy patrol of five of the new monsters. The two succeeded in driving them back to the German lines.

War Minister Leads Russians in Advance

The brilliant Russian advance, news of which has sent a wave of rejoicing through the entire country, was led by War Minister Kerensky in person. For the last four days the war minister has been at the front guiding every effort to urge the troops to advance. He finally rode to the front line trenches and placing himself at the head of the troops gave the order to advance. The spectacle of the popular war minister on the firing line has been what every patriot wished to see and the Russian liege swept forward into the German trenches.

TWO CASES OF CLOTHING FOR BELGIUM

Good Assortment of Clothing For Children Collected at Red Cross Rooms Yesterday Afternoon.

The ladies of the town who were instrumental in arranging for a day to collect clothing for the unfortunate Belgian children have every reason to feel proud of the great success of their efforts.

The regular clothing was liberally responded to. All afternoon there was a regular procession of women and children, each with his or her bundle and by evening the committee had enough goods to fill two large packing boxes. And such an assortment. There was a little of everything and it was all well-mended and ready to wear by any child, no matter what his previous circumstances had been.

Not only will the clothing bring comfort and happiness to those who are fortunate enough to get them but it will also be a source of consolation to the children who are very thoughtful in placing some trinkets and delicacies in the pockets of the smaller garments.

The two cases were packed and ready for shipment by 6 o'clock and will be forwarded by freight tomorrow.

As there were a number of families who were unable to get all their things together in time for yesterday they requested that they be given another chance. As a result the committee decided to make another shipment next Wednesday. The Red Cross rooms will, therefore, be open again next Wednesday for this purpose.

Will Re-Organize Dominion Cabinet

The Montreal Star, which claims to be in close touch with the Federal government, reports that plans are on foot to re-organize the Dominion cabinet along the lines of union government. Sir Robert Borden has been dealing with the matter and there is reason to believe that a number of Liberals are prepared to accept proposals for such a re-organization, and whatever other measures conduce to the winning of the war.

Only new cabinet re-organization will in all probability insure a direct representation of labor and of western grain growers.

Think End Of World Is Now in Sight

"The Seventh Day Adventist believe the end of the world is very near," so declared Pastor C. Thompson at their annual conference at Lacombe, though they are most careful to state that they do not, and never have set a time for this event. They understand the Bible to teach that the exact time of this event cannot be known by man, as it has not been revealed by God. They had taught that this present war would come, and they and they believe that they see in the events and conditions of the world today a direct fulfillment of the prophecies of the Bible and an evidence of the correctness of their belief that the end of the world is near.

Car Goes Over Big Bank at Niagara

A belt line car on the Great Niagara Route near Niagara Falls left the rails plunged down a 20-foot cut bank on the edge of the Whirlpool Rapids at 2:30 o'clock this afternoon. Nine persons are known to be dead, two were known to be on the car have not been seen since the accident and are thought to be dead. The car was estimated at 2 or 3 tons, as reported initially.

ITEMS OF LOCAL INTEREST

Leut.-Gov. Bretts has promised to be present and open the Stampede at Medicine Hat.

A. N. Collard left Tuesday night for Calgary to attend the fair. He will return by auto, bringing his new car back with him.

Rev. G. Lawson Gordon will be in his place at the Social morning and evening services in the Presbyterian church next Sunday.

Miss Pamette, who is on her way from Spokane to Fairbault, Minnesota, is spending a few days in town the guest of the Misses Kopp.

Robt. Hamilton, of the Brick & Coal staff, met with a painful accident last Saturday while engaged at his work. He was going down the incline railway when the cable slipped and the car crowded him on against the side of the shaft. He was badly bruised but his wounds are not serious.

The advance guard of the Stampede crooks visited Medicine Hat this week. Although uninvited they entered several houses and helped themselves to all the loose jewelry lying around.

Miss MacDonald, of the public school teaching staff, left last Monday for her home in Prince Edward Island, where she will spend her summer vacation.

John Wilkes, at one time manager of the Atlas Lumber yard here, was married in Medicine Hat yesterday to Miss Mabel Fletcher. The young couple will reside in Gull Lake in future.

The first glass blowers at the Dominion Glass plant, have ceased work for their summer vacation. It is the custom for this department of the plant to close down during July and August of each year.

As yesterday, July 4th, is always celebrated as the big day in the United States, many Union Jacks and Stars and Stripes were flying side by side on several of our buildings for the occasion.

The Red Cross rooms will be open again next Wednesday to receive clothing to be forwarded to the poor Belgian children. This is being done as there are a number in town who were not able to get their things ready for shipment. Jimmy Waters is at the same place at present.

A Lormouth received a letter this week from "Big" Billie Watson, who is still on the staff at a military hospital in Epsem, England. Watson was wounded during the time and he keeps well enough to attend to his duties at the hospital he does not expect to be able to return to the trenches again. Jimmy Waters is at the same place at present.

In a letter from Clarence Walker to his wife here he states that he has been promoted to Lance Corporal. He has also been awarded the military medal for his service on the field on April 28th. Although still lame and hearty, a recent picture of Corp. Walker shows that the long period of work in the trenches has left its impressions on his countenance.

WASHINGTON—An attempt to take in washing of all kinds. Apply Mrs. For Sale—Young pig; apply to Harry Johnson, Breslau, Bowell P. O.

A number of young people in town are preparing to go on a camping expedition up the river. The advance guard leaves tomorrow under the command of Corporal Campeau and when his staff gets the tents up the others will follow.

T. Richardson, of Bowell, met with a painful accident last Monday afternoon when his leg ran away. He was thrown from his wagon and sustained injuries which necessitated his going to the hospital in Medicine Hat for treatment.

Mrs. Kopp, who has been at her old home in Fairbault, Minnesota, having been called there owing to the serious illness of her mother, returned home last Tuesday. Her mother has completely recovered from her illness. Her father, G. Duhan, accompanied Mrs. Kopp to Redcliff.

Owing, no doubt, to the high wind last Friday afternoon, the attendance at parents at the closing exercises at the school was not as large as usual on these occasions. In each of the three grades the pupils put on appropriate programs at the close of which there was the usual treat in which all heartily took part.

The Red Cross Society made another good shipment last week. The shipment consisted of: Thirty suits pajamas, 12 dozen towels, 9 dozen pillow cases, 6 dozen wringers, 5 dozen triangular handkerchiefs, 3 dozen hot water bottle covers, 11 pair socks, 23 handkerchiefs, 19 pair shirts, 118 T bandages.

The concert given in the Amuse-theatre last Thursday evening under the auspices of the Great War Veterans' Association, was fairly well attended considering the threatening weather. The program was of a high standard and the different items were well rendered. Those desiring of special mention were the Scotch dances by the Misses Hogg, the singing exhibition by the young Ladies choir, the notes by Miss Freedman, and the recitation by Mrs. C. A. Potts, Coatsville Bridge, a returned veteran of the fighting tent, was present and addressed the gathering. He outlined the object of the movement, pointing out that the proceeds raised were to be used to provide assistance and accommodation for soldiers returning from the front.

AGAINST SWEDEN.
German submarines have opened a campaign against the Swedish merchant fleet along the Norwegian north coast, according to an Exchange Telegraph dispatch from Copenhagen.

Newspaper reports state that four vessels were attacked and sunk last Monday outside the blockade zone, the crews being compelled to take hastily to the lifeboats.

Another Air Raid**On English Coast**

German air raiders dropped bombs on another English coast town yesterday morning. Harwick on the Essex coast was the town visited on this occasion. The report says that eight persons were killed and 22 injured. Very little damage to property was done. The British anti-air force did good work and drove the enemy out to sea again.

Anti-Conscriptionists**Have Meeting Stopped**

Police intervention alone averted a riot at the scene of the anti-conscription meeting held in Winnipeg on Dominion Day. Four arrests by the city police followed a fracas-fest fight, in which, anti-Conscriptionists were quickly driven from the neighborhood of Market square, where the speakers were to have been delivered. A foreigner also was arrested by district intelligence officers.

Plan To Block Soo**Has Been Disclosed**

Secret investigation by American government agencies has disclosed existence of a great conspiracy to destroy or hinder shipping on the great lakes and thereby delay organization of American war armies and check the flow of food and munition material from the western states to the Atlantic coast. No conspirators have been captured and the identity of none has been made public, but it was learned that the state, navy and justice departments are co-operating to bring the offenders to punishment and that the Canadian government probably will be called upon to help.

INVALIDED IN CANADA

On June 22, there were 7,171 invalided members of the Canadian expeditionary force under the care of the military hospitals' commission in Canada, according to figures received from the commission's headquarters in Ottawa. The total shows an increase of 99 since June 15. The latest return from the old country shows a decrease of 418 between June 1 and June 8.
